PROJECTS

Urban Report

Description: Urban Report is a project designed to provide a platform for citizens to report civic issues. It uses technologies such as Gradle with Kotlin DSL and Java, HTML5, CSS3, JavaScript, Bootstrap 4, AJAX, and FontAwesome for the frontend. The backend is built with Java, JSP, and Servlets, and it uses a MySQL database (messtrackerdb).

EduGuard

Description: EduGuard is an educational application designed to help students stay focused by blocking distracting apps and maintaining their focus on studies. .
